Sri Ch. Vijaya Mohan, IAS,
Collector & District Magistrate,
Kurnool Dt.

Dear Sir,

Sub: Request for removal of liquor shops which were opened within the vicinity of 100 meters of Govt. Junior College, Srisaillam Project – Regarding.

We would like to bring to your kind notice that two liquor shops were opened recently within 100 meters distance from the Govt. Junior College, Srisaillam Project, Kurnool Dt. There is ZP High School nearby to the college and these liquor shops. The details are as follows:

- One is opened just right side of college main gate and Community Park.
- Second one is opened adjacent to the compound wall near the statue of Dr. B. R. Ambedkar.

The total strength of these two institutions is 1100 plus (435 from Junior College and 740 from ZP High School). Due to the operation of these liquor shops, it has become nuisance for the children while coming to the school & going back to the home. Being Old Students of those institutions, the Teachers/Lecturers, Children & Parents brought to our notice and requested us to take up the issue with your good self for shifting them.

Further, if the liquor shops are allowed near the education institutions, it is bound to jeopardize studies of the children and their future. This also creates nuisance value for day to day activities which may result in breaking peace in the area and law and order issues.

We would therefore request your good selves to look into the issue and consider that the above liquor shops may please be shifted from these educational institutes as per the prevailing rules and regulations of the government and Indian Constitution and provide us safe, secure and serene environment.

Thanking You Sir.

Yours faithfully

For Srisaillam Project Old Students' Association

(G. Chandra Sekhar), President
